

British Fires Ashurst Electric Stove

British Fires

RRP from £1249 (Showroom Exclusive)

Product Description

The Ashurst Electric stoves uses the latest LED flame technology to create a feeling of warmth in the room. The option to have the flame effect on with no heat gives an all year round use for the stove.

SPECS

- ☒ CE Certified
- ☒ Remote control included
- ☒ 3 fuel bed control options
- ☒ Brightness and flame only setting
- ☒ Daily and weekly timer
- ☒ Thermostatic heater

HEXO HEATER DESIGN

Subtle in appearance yet, efficient in heat disbursement. The Ashurst and Bramshaw both feature the hexagonal shaped outlets to create an interesting honeycomb texture while providing an effective heater outlet.

FUEL BED OPTIONS

The choice of fuel-bed is all yours. Select either the Real Log or the Glowing Log fuel bed for either of the two stove designs.

GLOWING LOG FUEL-BED

A glowing, static, fuel-bed creates a bright and warm focal point.

OPEN & SHUT CASE

In old log-burning stoves the door is opened to put logs on the fire. We wanted to keep this authentic feature from the past and took the opportunity to place the control panel behind it – out of view.
