Product Description

Celsi Ultiflame VR Designer

The Ultiflame VR Designer is a hearth mounted inset electric fire that uses innovative technology to create a Virtual flame - Real fire experience through 3-Dimensional visual depth, wide-angle viewing, and realistic flame movements. The deep fuel effect has an arrangement of real wood logs naturally placed over a bed of charcoal embers.

At the touch of a button, Ultiflame VR Electric Fires will stimulate your senses with a captivating visual flame display, whilst enjoying and relaxing in the comfortable warmth of a Virtual-Reality open fire experience.

This fire comes finished with a Black Nickel & Chrome fascia, the perfect choice for tasteful modern homes.

The inset rebate is 70mm and is fitted with a 40mm fixed spacer allowing easy manual control panel access.
