Product Description

Exuding efficiency and charm, Balmoral forms part of the Ecolite range of electric inset fires that is designed to offer the ultimate in electric heating. Complete with a top side switch control, the fire is easy to operate, and a one piece moulded coal bed with kettle connection makes for easy installation. For the ultimate in heat and comfort, a concealed 2.0kW fan heater provides a choice of two heat settings and for full visual effect, the flame can be enjoyed independently of the heat. Whilst boasting 100% efficiency, running costs are minimised courtesy of integral 'Ecolite' energy efficiency LED lights. To suit everyone's tastes, Balmoral is available in black, brass and contemporary chrome.
