Product Description

The Dimplex Cavalli suite is a premium, hand finished fire suite which features the iconic Dimplex Optimyst flame effect over a realistic, hand painted fuel bed. The Optimyst range is state-of-the-art, using established ultrasonic technology to create an ultra-fine water mist that rises up and works with the under fuel bed lighting to give a fully three dimensional fire effect. The result is so authentic that it is regularly mistaken for true flames and smoke.

Optimyst offers the beauty of a real fire with the simplicity of electric.

The unique mirror-back adds additional depth to the fireplace, making the Cavalli a striking room feature. The 2kW heater includes 2 heat settings and the thermostatic controls mean you can efficiently manage your room temperature. The remote control allows you to set the 7 day timer, temperature, flame intensity, heat settings and flame only function, putting the control of comfort in the palm of your hand.
