## Product Description

A marriage of traditional looks and the latest in contemporary controls; the Crestmore is a fantastically slick inset fire to suit any interior scheme. Finished in a brass effect with a real coal fuel bed and Opti-myst technology, it provides a beautifully realistic focal point.

The Opti-myst technology creates the most realistic flame and smoke effect available, and can be controlled via both the touch sensitive electronic display, or from your sofa with the remote control. A real fire feel with the convenience of electric; the Crestmore is the latest in electric fire technology.

Optional spacer (OSP003) available (at extra cost) allows use flat-to-wall.
