Product Description

The Laverton freestanding electric stove incorporates the unique Optiflame 3D – the latest in flame technology from Dimplex. Creating a realistic and captivating 3D flame effect, the Laverton is a stunning classic design, which will compliment any interior

The Laverton can be controlled by either the easy-to-use remote control or the manual controls located behind the opening door. Providing up to 2kW of heat, the Laverton can be used independently of the heat offering a warm ambience around the home at any time of the year.

Optiflame 3D gives the power of choice. Add a blue flame for cool, calm vibes or choose a deep orange for a glorious glow. Adjust the flame brightness and downlighting to enhance the drama and pick from crystals, logs or black vermiculite to enrich the luminosity of the fuel bed.

The Laverton has a range of features including LED lighting, thermostat, runback timer, two heat settings, ambient flame cycle offering a choice of colours which are all controlled by the touch of a button.

The beauty of a real fire, the simplicity of electric.

This product is only suitable for well insulated spaces or occasional use
