## Product Description

The Lerwick inset electric fire incorporates the unique Optiflame 3D – the latest in flame technology from Dimplex. Creating a realistic and captivating 3D flame effect, the Lerwick is a contemporary modern design, which will compliment any interior.

Optiflame 3D gives the power of choice. Add a blue flame for cool, calm vibes or choose a deep orange for a glorious glow. Adjust the flame brightness and downlighting to enhance the drama and you can choose from coals, logs, crystals, or pebble to create the fuel bed you desire.

Providing up to 2kW of heat, the Lerwick can be used independently of the heat offering a warm ambience around the home at any time of the year. Controlled by the easy-to-use remote control or the manual controls located on the top right hand side of the fire,

This model comes with a host of features including LED lighting, thermostat, runback timer, two heat settings, multi-coloured flame, downlight, fuel bed lighting option and adjustable flame brightness, all controlled by the touch of a button.

The beauty of a real fire, the simplicity of electric.
