## Product Description

Designed with the very latest Chromalight® LED technologies, a choice of stunning fuel beds, plus app control, the innovative Gazco eReflex 135RW electric fire lets you choose the perfect ambience to suit your mood. Using the innovative app or Thermostatic Eco Remote Control, you'll not only be able to turn on or off the heat independently of the display, but have full control over the array of immersive lighting options available, all from the comfort of your sofa.

Designed to be the perfect centrepiece to sit front and centre as part of a media wall, the eReflex 135RW is easily configurable as a single-sided or multi-sided electric fire. To further enhance your space, an optional mood lighting kit is available which can be placed around your TV or shelves, to bathe them in your choice of 13 vibrant colours, or the steadily changing spectrum mode.
