Kalfire E-One 130 S

Kalfire

RRP from £6409 (Contact us for our discounted price)

Product Description

The Kalfire E-one stimulates all the senses. Unique innovative technologies create ultra-realistic flames, resulting in an unparalleled fireplace experience. The Kalfire E-one creates the optimal look and feel in and around the fireplace.
Thanks to the unique, innovative technology, you can create the perfect flame and atmosphere: choose the height, intensity, and colour of the flames. Adjust the ember bed and ambient light and choose between the sound of crackling pine wood or beech wood. The Kalfire E-one allows you to create the fire that you want.
The Kalfire E-one is all about freedom. Because without gas connections and flues, there are endless options for placing and installing this design fireplace. You can even change the fire settings – for the flame, ember bed, and ambient light – to create your perfect fire.
A safe fire is a fire that is accessible to everyone. The Kalfire E-one does not give off any direct heat from the fire, making it safe for people and animals. The only thing you need to start enjoying the E-one is a plug socket, so it can be placed anywhere.
